Installation Guide

The Android Application, TSMSJudge, can be downloaded using its respective URLs. The installation process is explained in this document.

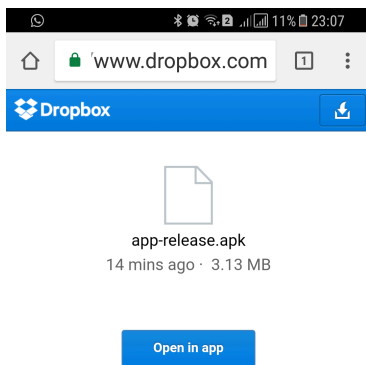

For TSMSJudge

TSMSJudge can be downloaded from bit.ly/2BJWPaG. Follow these steps on your Android phone, the minimum Android version required is Android Lollipop v5.0. The demonstration was run on a Samsung Galaxy s8, with Android version 7.0, API 24.0.

1. Open any Internet browser, on your phone.
2. Enter the URL bit.ly/2BJWPaG in the address bar:

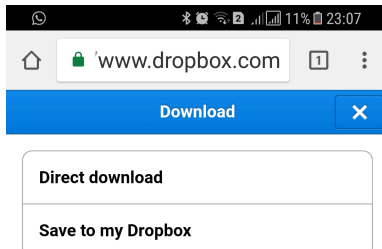

3. The URL will redirect you to the download page:

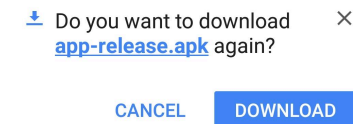

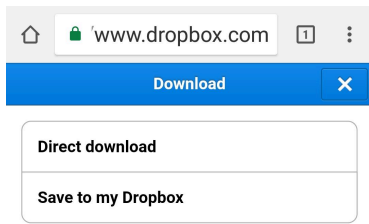

4. Click on the download button on the  top right corner

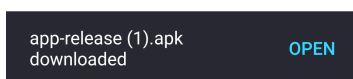

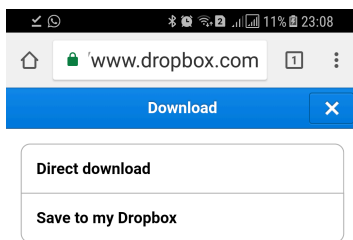

5. You will be taken to this page, click on “Direct Download”

6. After clicking on “Direct Download” the browser will ask you if you want to download the file, click on “DOWNLOAD”

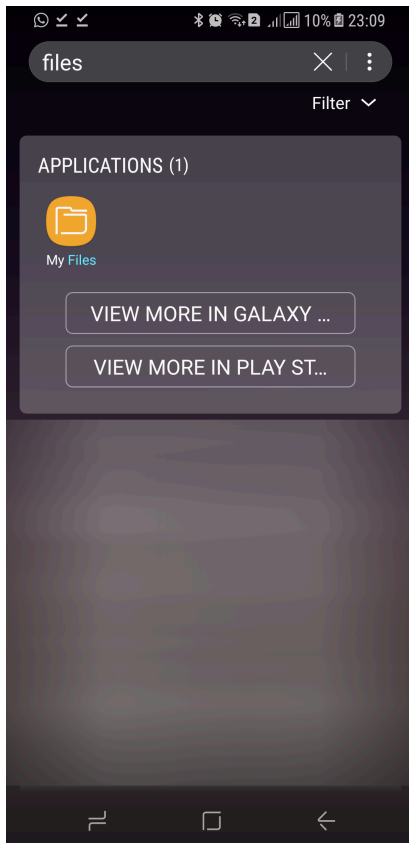

7. Wait for the file to finish downloading, a prompt will be shown, along with an option to open the file

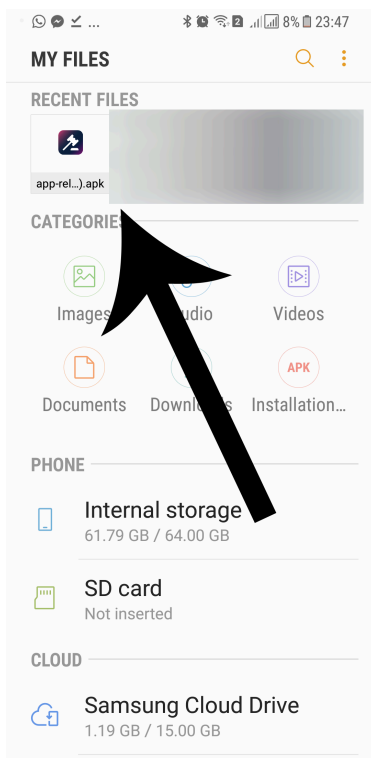

Do not click on “OPEN” instead, follow step 8.

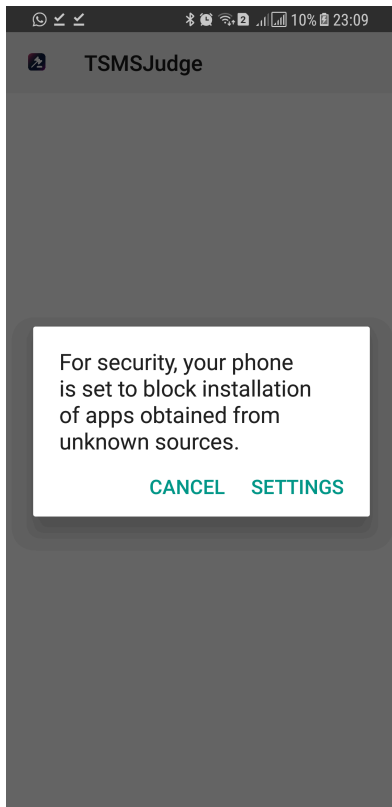

8. Open the “My Files” application on your Android device, or any other dedicated file viewer.

9. Find the file you downloaded in the file viewer. You can find it in “Recent Files” or “Downloads”

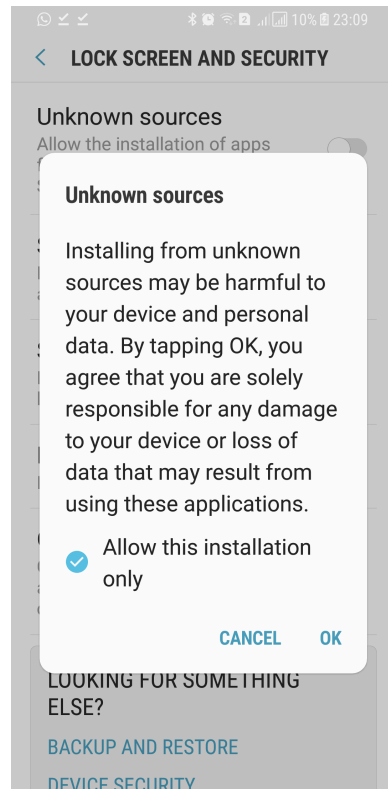

10. Click on the downloaded “.apk” file
11. You will be met with a security issue prompt, warning you to install application downloaded from the internet, with an option to go to settings, click on settings.

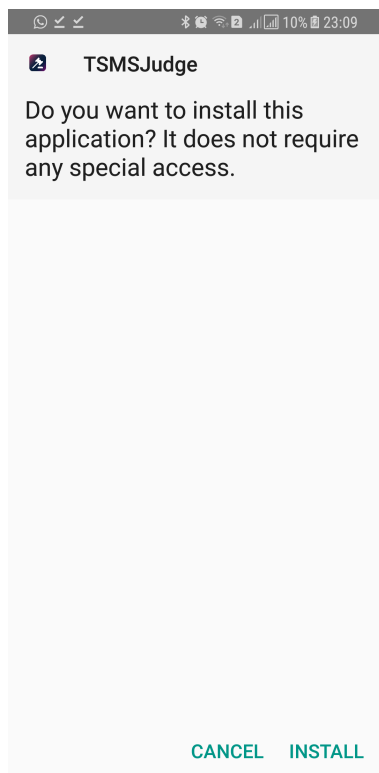

12. In settings, swipe the “Unknown sources” slider to turn it on

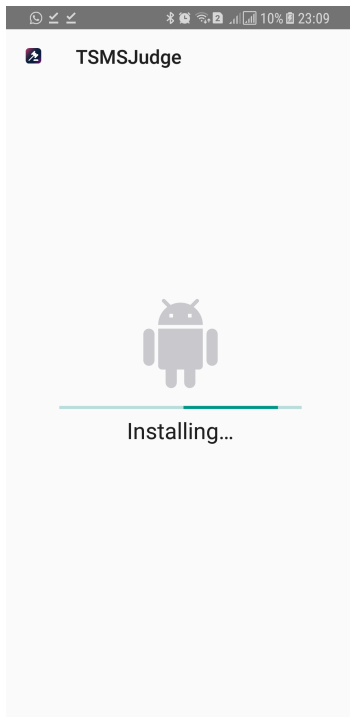

- a. You'll be met with a prompt asking if you're sure of installing from unknown sources. Tap “Ok”

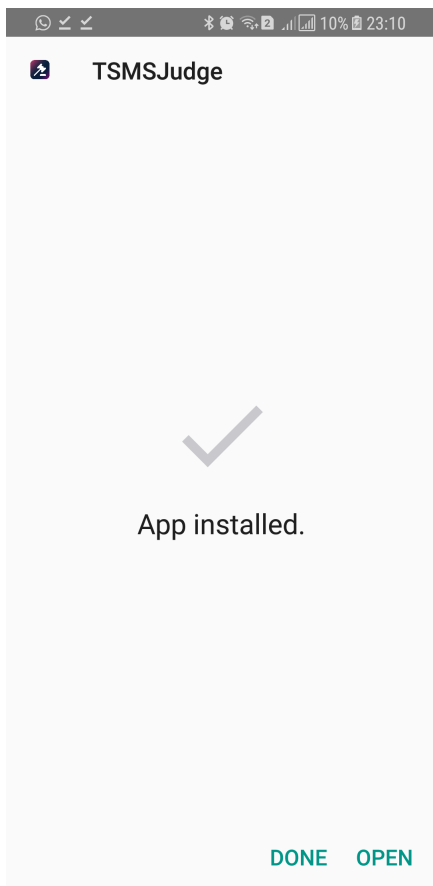

13. After completing the previous step, your phone will begin the installation process, but first, your phone will ask you if you're sure of installing the app, click on "INSTALL"

14. TSMSJudge is now being installed on your phone

15. After a few moments, the app will be installed on your phone

16. You have successfully downloaded TSMSJudge on your device.
